TRACK DRIVE ACCESS PLATFORM

The TD34T access platform offers an impressive working envelope from a compact base with outstanding traction. The TD34TN access platform delivers 60% gradeability with excellent traction on steep or rough terrain. Weight-saving design means that site to site transportation is more economical and the TD34T access platform is also more efficient, allowing it to work for longer while using less fuel. Also available are rubber-free urethane tracks, the TD34T access platform is ideal for internal or clean applications, increasing the number of locations that the TD34T access platform can work, greatly improving its utilization.
