Key Features

- Enclosure design includes gull wing doors, drop down tailgate doors and a cooler access hatch to provide the best servicing capabilities in the industry.
- The efficient central drain system allows operators to easily drain fluids from the radiator and oil and fuel tanks to a central location, without having to crawl under the machine.
- Operation is made easy and efficient with a control panel that offers more detail and preloaded resources than any other control panel in the market.
- Equipped with a Doosan-designed and manufactured airod that offers a highly efficient rotor profile, requiring less horsepower to deliver high-volume cfm output.
- Built to excel in rugged conditions with a heavy-gauge steel enclosure, heavy-duty tandem-axle running gear and construction-grade pedestal jack stand.
- Available with IQ System® that provides Instrument Quality air.
