HYDRAULIC BREAKER

A sleek body with a reliable soul

- Designed without side bolts for maximum reliability
- No gas recharging required – maintenance - free accumulator
- Advanced percussion mechanism for highest performance in its class
- Energy recovery (recoil effect)
- Sleek and compact body makes positioning easy
- Two retainer bars instead of ordinary pins - provide better resistance against wear in all applications
- Full length, large diameter tool bushing for minimum wear and increased lifetime
- ContiLube® II kit available as option
- Dust suppression features
- Idle-stroke protection – reduces vibrations when blank firing
- Air and water injection – for dust suppression and underwater breaking
- Vibro silenced: noise and vibration reduction as standard
