The G70 carries Doosan Portable Power's legacy of rugged, dependable power. The G70 generator boasts tough running gear and a hardened enclosure that can stand up to harsh environments. The G70 also has the ability to change from 50Hz to 60Hz, making it one of the most versatile generators offered today. The G70 Tier-4F generator from Doosan Portable Power delivers the quietest mid-range T4F package in the market by delivering 76kVA (62kW) at 65 dB(A). A dual-frequency switch comes standard on the G70, allowing the generator to change from 50Hz to 60Hz. Easy-to-use operator interface features a digital display of key engine and generator parameters. A redesigned connection panel provides sage and easy power wiring installation.

The G70 generator from Doosan Portable Power is powered by a Doosan D34 engine that delivers fuel economy and performance while ensuring the compliance with the latest emissions standards. The Marelli alternator upholds Doosan Portable Power's dedication to reliability and efficiency. Marelli alternators provide excellent motor starting capability, stable voltage regulation and fast transient response. The G70 generator from Doosan Portable Power provides the unmatched versatility to support any application.
