XHP1170WCU-T4F

| Fuel Tank Capacity | Pressure Range | Air Discharge Outlet Size | Length w/ running gear | Width w/ running gear | Height w/ running gear | Track width w/ running gear |
|--------------------|----------------|---------------------------|------------------------|-----------------------|------------------------|-----------------------------|
| 222.4 Gal | 140-365 PSIG | 3 in (76.2 mm) | 292.4 in | 90.1 in | 99.5 in | 71 in |

General Features:

- The XHP1170WCU-T4F compressor from Doosan features an intuitive control system with a full color digital display and LED backlit gauges, providing full machine status, a fault code history and an integrated e-reader library pre-loaded with a full set of manuals for the machine. Package features include 110% fluid containment environmental base; single row core heat exchangers for ease of cleaning; fuel cooler is standard; enclosure is designed to minimize rain egression; galvanneal sheet metal enclosure for ultimate corrosion protection.

Features:

- Engine Make/Model : Cummins/QSX15
- Fitted with a Doosan-manufactured HR350 airend, the unit delivers a high volume of air with less horsepower for 5% greater fuel economy
- equipped with a Doosan HR350 airend that requires less horsepower to deliver a high volume cfm output
- A powerful Cummins QSX15 engine includes a selective catalytic reduction (SCR) and diesel particulate filter (DPF) after-treatment system
