HAND HELD SCABBLER

APPLICATIONS

- Cleaning and roughening concrete surfaces.
- Preparing construction joints.
- Removing coatings, adhesives, and laitance.
- Creating slip-resistant finishes.
- Texturing surfaces for better bonding of overlays.

FEATURES

- Compact and Lightweight: Designed for ease of use in confined spaces and on vertical surfaces.
- Durable Construction: Equipped with tungsten carbide-tipped pistons for extended tool life.
- User-Friendly Design: Contoured grip handle reduces operator fatigue and increases productivity.
- Efficient Operation: High impact rate ensures rapid material removal.

KEY SPECIFICATIONS

Power Source:	Pneumatic (air-powered)
Air Consumption:	Approximately 27.5 CFM at 100 PSI
Blows Per Minute:	3,000 bpm
Number of Pistons:	3 tungsten carbide-tipped pistons
Weight:	
CP6:	Approximately 10 lbs
CP66:	Approximately 10 lbs
Length:	
CP6:	18.5 inches
CP66:	11 inches
Air Inlet:	1/2" NPTF
Sound Pressure Level:	Approximately 95–97 dB(A)
Vibration Level:	
CP6:	Approximately 75.7 ft/s ²
CP66:	Approximately 41.9 ft/s ²
