FLOOR SCARIFIER (Includes carbide teeth)

FEATURES

- **Power Source Over Drum:** Positioning the motor directly over the drum minimizes vibration and maximizes surface contact for consistent results.
- **Front-Mounted Lifting Handle:** Facilitates easier loading and unloading, enhancing portability.
- **Compact Design:** Allows for operation in confined spaces and ease of storage.
- **Versatility:** Suitable for various applications including sidewalk trip hazard repair, traffic line removal, and surface texturing.
- **Optional Edger Attachment:** Allows the CPM-8 to get within 1-3/4" of any vertical surface.
