TILE STRIPPER

APPLICATIONS

- Removal of vinyl, linoleum, carpet, rubber, and other soft floor coverings from concrete surfaces.
- Ideal for both residential and commercial floor preparation tasks

FEATURES

- **Powerful Oscillating Blade System:** Delivers 1,850 hits per minute, allowing for fast and efficient removal of tile, carpet, vinyl, and other soft floor coverings.
- **Heavy-Duty Construction:** Built with 7-gauge steel and a steel deflector shield, ensuring durability and operator safety in tough jobsite conditions.
- **Folding, Adjustable Handle:** The adjustable and foldable handle improves operator comfort and makes transport/storage much easier.
- **Quick Blade Change System:** Features a Sharktooth wrench and quick-release pin, enabling fast and tool-free blade changes or angle adjustments.
- **Built-In Weight and Push Plate:** Adds extra downforce and stability to improve stripping performance without needing external weights.

KEY SPECIFICATIONS
