

# MVC60VTHW

AVAILABLE FOR  
RENT OR SALE

## ONE-WAY PLATE COMPACTORS

The new MVC60VTHW delivers the same great performance as the MVC64VHW, but now with exciting new features! This plate compactor provides high frequency vibration designed for use with granular soil, asphalt, sand, and other mixed soil. It is ideal for construction, landscaping, plumbing and municipal projects.

- Now with cast iron plate to enhance durability and performance
- Easily monitor usage with built-in hour/tachometer
- Pre-installed wheel kit for easier jobsite mobility
- Foldable handle now comes standard for compact storage and transportation
- New anti-vibration handle reduces hand-arm vibration by additional 23%
- Convenient removable water tank allows user to fill up without the need to move the entire piece of equipment to the water source
- Highly maneuverable and user-friendly, this durable machine is ideal for smaller jobs, narrow trenches and working along edges, walls, curbside, pipes and pathways.
