500,000 BTU INDIRECT IN OIL/DIESEL

The most efficient, durable and reliable Indirect Fired Heater available in its class. The IDH500QR is also the one of the quietest at <62dB and includes standard recirculation for MAXIMUM fuel efficiency savings!

Features:

- Over 81% efficiency
- Fully Insulated Jacket to minimize heat loss
- High static pressure/high volume fan provides large volumes of air movement with or without ducting attached
- Standard with 16" outlet. Dual 12" outlet available.
- 16" Intake that can accommodate up to 50ft. of return duct to significantly reduce fuel consumption and heating times (length of intake duct attached requires equal reduction from 100ft. of supply duct ..e.g: 25ft intake = 75ft supply)
- 6-Ply Pneumatic tires, handles & lifting bail for easy transport
- Quiet operation of <62dB for noise sensitive areas
- 60 US Gallon Double-wall Fuel Tank available
- **CSA Approved**

Specifications:

- Approximate Dry Weight: 420lbs
- Approximate Weight w/ Fuel: 580lbs
- Maximum Heating Capacity: 500,000 BTU/h
- Fuel Requirement: Oil/Diesel
- Heated Air Volume: 4,800 CFM
- Maximum Static Pressure: 3.5"
- Discharge Temperature: Up To 250 F (121 C)
- Approx. Run Time (Std/Opt): 20 hrs
- Standard Recirculation: Yes
- Overall Dimensions (LxWxH): 70" x 35" x 57"
- Required Power: 120V/20amp/60Hz
